

Hydraulic Universal Pliers

Hydraulic Universal Pliers

UP 70

Description

One cutting tool for confined space rescue, small size, lightweight, easy to carry, apply metal plate shearing.

Application

Traffic accident, air disaster, collapsed building, earthquake etc.

Features

- ▶ Specially designed for confined space rescue operation. The shearing blade adopt high quality heat-treated tool steel, surface anodized, good wearing resistance, high strength and toughness.
- ▶ The shearing blade could be flipped to positive or negative direction.
- ▶ Tiny central bolt construction for better access to narrow space.
- ▶ Cylinder is made of lightweight high strength aluminum alloy, small size and lightweight. Cylinder surface treated by hard oxidation technology, anti-abrasion, anti-scratch, high strength.
- ▶ The reversing valve equipped with bi-directional self-locking, so the cutting head can be fixed on any position, no retraction, it makes the operation more convenient and accurate. The handle can auto reset.
- ▶ Key seals imported from Germany.

Specification

Model	UP 70	
Rated Working Pressure	70 MPa(700 bar)	10152 psi
Opening Distance	70 mm	2.7 in
Blade Head Rotation Angle	200°	200°
Max Cutting Capacity	6 mm(steel plate)/Ø18 mm(round steel)	0.23 in(steel plate)/Ø0.71 in(round steel)
Weight	7kg	15.4 lbs
Dimension	370*220*90 mm	14.5*8.6*3.5 in
