

Security Door Forcible Entry Kit

MRT-DFE-1

Description

Rescue tools for security door forcible entry quickly.

Application

Especially suitable for quickly breaking down security doors, security windows, rolling curtain doors, car doors and other metal doors and windows, etc.

Features

- ▶ The portable security door breaking kit is designed and manufactured with concept of lightweight and portable, easy to carry.
- ▶ Can be operated by one person, ensures rescuers to start rescue quickly at scene of accident and disaster.
- ▶ The kit is especially suitable for emergency rescue in difficult environments, such as building fire, overpass bridge car accident, confined space rescue and so on.
- ▶ It works under extreme difficulties such as power cut, gas cut and circuit break.

▶ Main parameters

Hydraulic Pump

- Rated Working Pressure: 70 Mpa ▪ Handle Force: ≤ 350 N ▪ Rated Flow Rate: ≥ 0.8 ml/time
- Low Pressure Flow Rate Pressure: 1.3 Mpa ▪ Low Voltage Flow Rate: ≥ 3.2 ml/time
- Weight : ≤ 2.7 kg ▪ Weight in working state : ≤ 4 kg

Door Opener

- Rated Separation Force: ≥ 50 kN ▪ Closed Length: ≤ 210 mm ▪ Opening Force: ≤ 110 mm
- Working Range: 0~310 mm ▪ Weight: ≤ 6.5 kg

Small Spreader

- Rated Separation Force: ≥ 55 kN ▪ Max Separation Distance: 160 mm ▪ Weight: ≤ 3.6 kg

Crowbar Tool

- Length: 457 mm ▪ Weight: 1.8 kg

Specification

Model	MRT-DFE-1
Packaging Option 1	Backpack
Packaging Option 2	Engineering Plastic Packaging Box
