

Hydraulic Portable Hand Operated Combination Tool

Hydraulic Portable Hand Operated Combi Tool

G3HCT 196

Description

One tool for cutting, splitting and clamping. Accordingly they are suited for getting initial access to the injured, e.g. to ensure that medical first aid can be provided.

Application

Traffic accident, air disaster, collapsed building, earthquake etc.

Features

- ▶ No extra power source needed. Reliable for cutting, splitting and clamping.
- ▶ Tiny central bolt construction for better access to narrow space.
- ▶ Cylinder is made of lightweight high strength aluminum alloy, small size and lightweight. Cylinder surface treated by hard oxidation technology, anti-abrasion, anti-scratch, high strength.
- ▶ The multifunctional auxiliary work head with anti-skid design, easy for narrow space operation. The cutting head can be rotated 360° around hand pump, with high strength and toughness. The cutting edge with strong cutting force and prevent spurting and splashing
- ▶ The reversing valve equipped with bi-directional self-locking, so the cutting head can be fixed on any position, no retraction, it makes the operation more convenient and accurate. The handle can auto reset.
- ▶ Easy carry, and flexible use.
- ▶ Key seals imported from Germany.

Specification

Model	G3HCT 196	
Rated Working Pressure	70 MPa(700 bar)	10152 psi
Opening Distance	160 mm	7.7 in
Rated Spreading Force	25 kN	5620 lbf
Handle Force	300 N	67.4 lbf
Max Cutting Capacity	Ø26 mm(round steel)	Ø1.02 in(round steel)
Weight	≤10kg	22 lbs
Dimension	740*190*160mm	29.1*7.5*6.3 in
